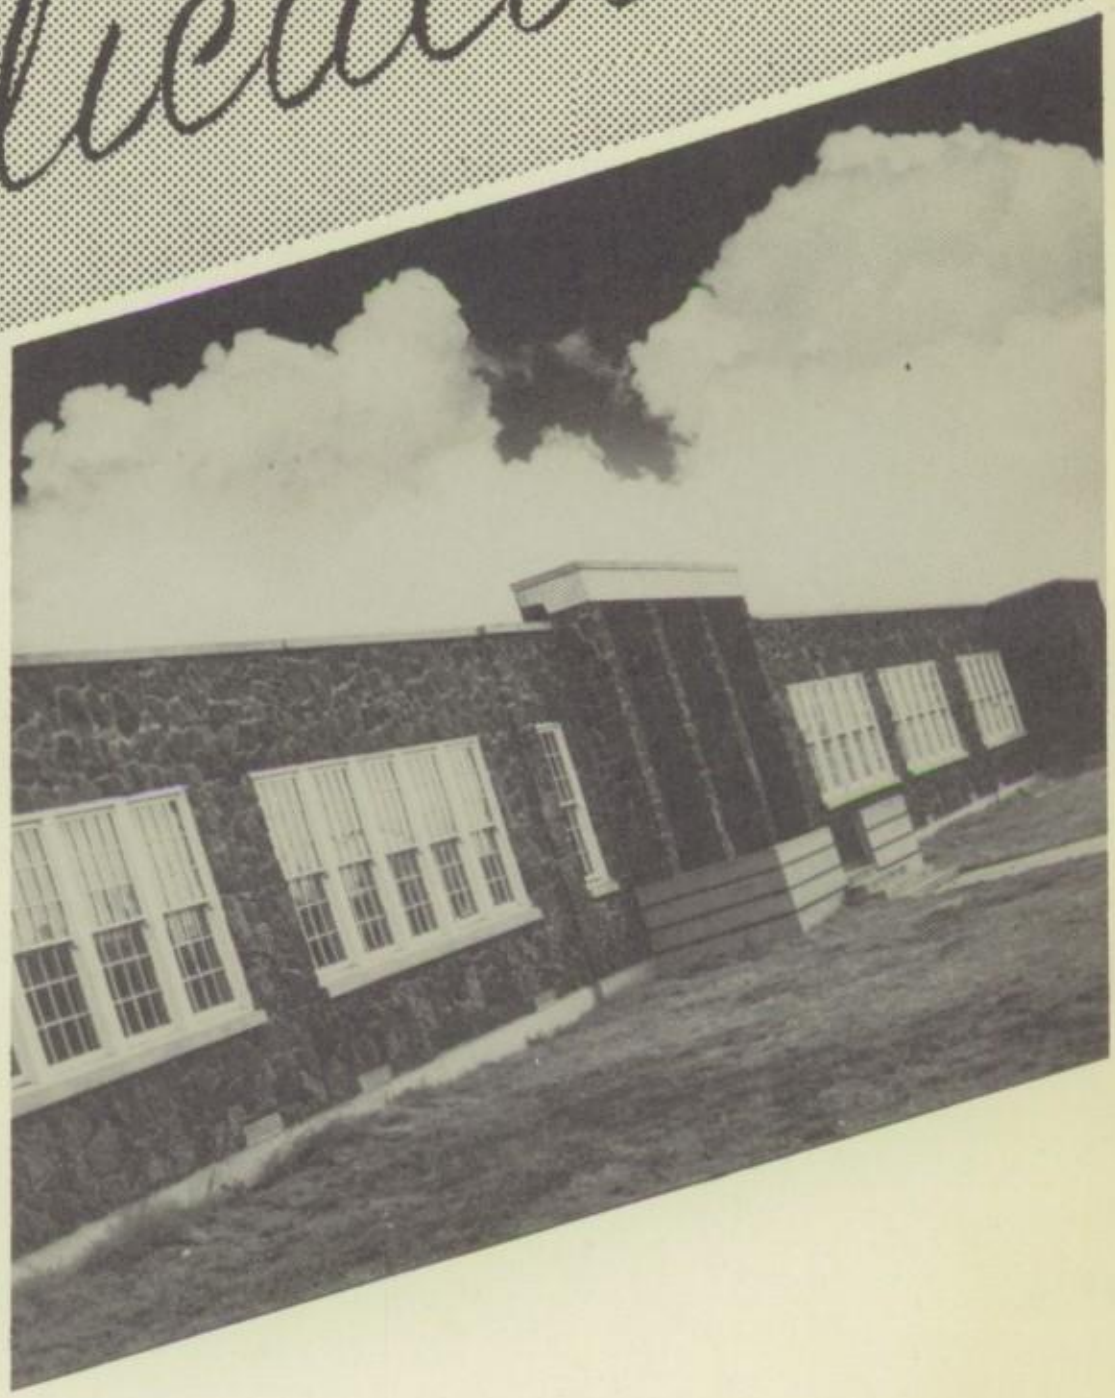
Foreword

It is the wish of the senior class that this book may serve as a tie that binds, and may recall happy memories of your school days spent at Pickton High.

The Annual Staff

Dedication



Since the theme of the Green and Gold is "School Days" it seems appropriate that we seniors dedicate this annual to our parents who have worked and sacrificed for us throughout our school days, without complaint or limit, to help us prepare for a happy and successful life.

I wish to express my gratitude to the Sponsor and the Class of '52 for the fine work of editing this annual, and I wish to congratulate the Seniors on the completion of their work at Pickton High School.

Our objective at Pickton High School is to teach the graduate how to live a more active, useful life and be an asset to his community.

To all the students we feel a tender and affectionate relationship, even beyond the teacher-student relation. For each of you we wish a most successful future with the best things life has to offer.

PRINCIPAL'S MESSAGE

I wish to congratulate the students of Pickton School for your fine spirit of co-operation. Progress comes only through the cooperation of all concerned.

When you have passed through this school, may the intellectual and moral understanding of humanity and progress given you here serve as a stimulus to perpetuate your covert and overt actions throughout life.
